WHO WE ARE

The World Ethnosport Confederation (WEC) is an international institution whose main mission is to safeguard, promote, and spread traditional sports and games.

WEC'S VISION

WEC, which aims at solidarity by competing through traditional sports and games, peace through enjoyment, and conveying the accumulations of the past to the future through professionalization, possesses the vision of becoming an internationally recognized authority in this field.

PEACE

RESPECT

SOLIDARITY

TRADITION

PEACE

This core value refers to providing the foundation for rapprochement, cohesion, and the desire for common living among societies that will lead the problems of traditional sports and games to the predilection of the solution based not on force and aggression but on reason and good relations.

SOLIDARITY

This core value means acting with an understanding that strength comes from unity rather than acting increasingly individualized or for maximizing interest, that prioritizes public benefit, and that believes in seeing traditional sports and games as the background for the creation of strong social bonds.

RESPECT

This core value expresses behaving with an understanding that is based on, develops, and is rooted in respect for individuals, clubs, cultures, and humanity instead of the psychology and behaviors that cause damage to the purpose and morality of sports and games, such as fanaticism and hooliganism.

TRADITION

This core value refers to contributing more strongly to the continuation of the link between the past and the future by passing on the cultural wealth of societies to future generations through the agency of traditional sports and games.

ORGANIZATION AND INSTITUTIONALIZATION

Designing, developing and institutionalizing structures that manage traditional sports and games at local, regional and international levels.
